Skill Development Training Programme on 'Agriculture Extension Service Provider'

Krishi Vigyan Kendra, Nandurbar has been nominated as Skill Development Training Centre by Agriculture Skill Council of India. Under this programme, KVK has been allotted skill development training programme of 200 hrs.

Participants:

Twenty rural youths from the Nandurbar district participated in every training programme. Youths who were interested in working with NGOs, Members of farmers group and those interested in extension services were selected and actively participated in the training.

Year	Date	No. of programmes	others			SC/ST			Total		
			M	F	T	M	F	T	M	F	T
2016-17	4-28/03/17	01	5	0	5	15	0	15	20	0	20
2017-18	3-27/3/18	01	07	02	09	11	00	11	18	02	20
2018-19	10/1/19 To 6/2/19	01	09	00	09	09	02	11	18	02	20
2019-20	27/2/20 To 24/3/20	01	11	0	11	9	0	9	20	0	20

Training curriculum:

This training programme consisted of five major extension components with 200 hrs duration of theory and practical.

- 1) Plan of extension services.
- 2) Identify location specificity of Agricultural Technology
- 3) Make frontline demonstration
- 4) Provide Training to farmers
- 5) Assists with backward & forward linkages.

The skill training programme was excuted under the able guidance of Shri R S Dahatonde, Head cum Senior Scientist, KVK Nandurbar. The training sessions were conducted & coordinated by Shri. P C Kunde, Trainer, KVK Nandurbar.

Assessment of trainees:

ASCI has organized **assessment test** for trainees. All participants has undergone through tab test, conducting of practical's & viva.

Outcomes of the Training:

After completing this programme, participants would be able to identify the needy extension service, collection of inputs for extension service, making preparation & planning for extension services and to bridge

the available location specific technology with existing situation. Participants were well known about planning, delivering, feedback & documentation of farmers training. Participants will able to demonstrate latest technologies through field & method demonstration.

As such, it is strongly believed that the pace of transference of beneficial available agricultural technology to the farmers may become faster and easier through the trained Agriculture Extension Service Provider.
